

Nejc Jus is responsible for shaping, leading and implementing the WTTC's research agenda. The research is a key pillar of WTTC's advocacy and is used to guide work in the company's strategic priority areas. Nejc is also responsible for building and maintaining relationships with the company's research partners. Prior to his role at WTTC, Nejc held various research positions at leading global real estate companies including JLL, Knight Frank and Savills. Nejc holds BA in Land Economy and Management Studies from University of Cambridge and MSc in Environmental Economics from University College London. Hailing from Slovenia, he loves to travel for adventure and to experience new cultures.
