Who We Are

Our Mission

As the destination marketing organization for the United States, Brand USA’s mission is to increase incremental international visitation, spend, and market share to fuel the nation’s economy and enhance the image of the USA worldwide.

Established by the Travel Promotion Act of 2009 as the nation’s first public-private partnership to spearhead a globally coordinated marketing effort to promote the United States as a premier travel destination and to communicate U.S. visa and entry policies, Brand USA began operations in May 2011.

Building on Success

As one of the best levers for driving economic growth, international travel to the United States currently supports 1.8 million American jobs (directly and indirectly) and benefits virtually every sector of the U.S. economy. Since its founding, Brand USA has worked with more than 900 contributing organizations to invite the world to explore the exceptional, diverse, and virtually limitless travel experiences and destinations available in the United States of America.

Our Partnerships

Brand USA’s operations are supported by a combination of non-federal contributions from destinations, travel brands, and private-sector organizations plus matching funds collected by the U.S. government from international visitors who visit the United States under the Visa Waiver Program.

Learn More

According to studies by Oxford Economics, over the past seven years, Brand USA’s marketing initiatives have helped welcome 7.5 million incremental visitors to the USA, benefiting the U.S. economy with nearly $55 billion in total economic impact, and supporting more than 50,000 incremental jobs each year.

A Message from Christopher L. Thompson

As the destination storytellers for the United States of America, Brand USA helps drive our nation’s economy, create jobs, and bring the people of the world closer together. This guide is designed to assist you in generating business from the Mexico outbound-travel sectors. And, while it includes data from our fiscal year 2019, it’s important to acknowledge the unprecedented impact of COVID-19 in 2020. The global pandemic has resulted in tremendous loss for many families and has had a devastating impact on the travel industry. All of this makes Brand USA’s work even more critical. We are uniquely positioned to help guide the industry out of this crisis.

More than 18 million people traveled from Mexico to the United States in 2019, spending $20.2 billion and ranking the country second overall in visitation, behind Canada, and third overall in spend, behind China and Canada. While shopping, sightseeing, amusement and theme parks, art galleries and museums, and national parks and monuments are the top five attractions that visitors from Mexico look for in a visit to the United States, adventure activities, music scenes, and sporting events continue to climb in popularity. All of this is consistent with a trend we see increasing—the travelers’ value of experiences more than possessions.

Our forward-thinking marketing approaches allow us to capture the attention of global audiences in new, more compelling ways which ensure the United States stays top-of-mind as an aspirational travel destination. Brand USA uses many voices to showcase the diverse people and places across the United States in a way that inspires and encourages wanderlust. In FY2019, Brand USA launched the United Stories campaign giving voices to real travel experiences from a variety of perspectives including locals, international visitors, category experts and the creative class. We continued to stream content through the GoUSA TV streaming and YouTube channels, which offer a variety of short, medium, and long-form content about a diversity of travel experiences.
As you consider resources, please know Brand USA has a dedicated travel-trade website which provides a more effective and efficient platform for industry professionals to navigate information about U.S. travel. In addition, please don’t hesitate to reach out to our team about U.S. destinations, the opportunities we offer to enhance your marketing efforts, and the most effective ways to inspire travelers to book trips to the USA.

We look forward to working with you in the months ahead to generate business to the United States from Mexico.

Together, we are marketing the USA!

The USA is the number one destination for Mexican travelers, representing 26.4 percent of the total market share. In 2019, 20.9 million Mexican residents traveled to the USA; 86.6 percent arrived by land, while 13.3 percent arrived by air. Arrivals by land have shown a decrease due to insecurity in Mexican northern states; however, arrivals by air have increased.

On the spending side, Mexican travelers ranked third in 2018, spending USD20.3 billion—five percent more than the preceding year. It was the fourth straight year that Mexican travelers’ spending increased while visiting the United States.

The Mexican economy has experienced moderate to high GDP since the 2009 recession, until last year, when annual growth was zero percent. Investors’ certainty in the country and economic perspectives in the medium term have been questioned due to unpredictable policymaking.

**Mexican Traveler Profile**

Mexican travelers usually travel for holiday purposes, followed by visiting friends and family, and then business.

The top activities while traveling to the USA are:

- Shopping (83 percent)
- Sightseeing (64.9 percent)
- Amusement/theme parks (27.8 percent)
- Art galleries/museums (23.7 percent)
- National parks/monuments (23.6 percent)

Adventure, music, and sports have become important reasons for Mexicans to choose the USA as a weekend or long weekend destination because of the proximity and connectivity between both countries. These activities have a great growth potential in market, and they are part of Brand USA's strategies in Mexico for 2020.

Millennials, affluent consumers, and parents with young children are the largest group of vacationers. The younger generation (20–35 years old) is traveling more than previous generations and values experience over material possessions.

Demographics of Target Markets

- **Generation Z (0–22 years)** is looking for off-the-beaten-path destinations. They are open-minded, looking for recommendations from locals, and embrace the “you only live once” (#YOLO) mentality. They travel nearly 30 days a year, and although they have a budget in mind when planning a trip, they invest in travel and are more likely than other generations to travel internationally.

- **Millennials (23–37 years)** More than any other generation, advertisements are influential during millennials’ decision-making process, and they are most influenced by advertisements featuring appealing deals, imagery, and informative content. More than half of millennials are using OTAs to book travel, followed by other search engines.

- **Generation X (38–52 years)** This group travels the least amount of days per year, but when they do, they spend more on hotels, prefer relaxing trips, and enjoy sightseeing vacations and visiting family members abroad.
About 90 percent of Generation X search for deals and read travel reviews before making a decision, and 88 percent said informative content from destinations and travel brands influence their decisions.

- **Baby Boomers (53–71 years)** Traveling an average of 27 days per year and heavily focused on visiting family, Baby Boomers know where they want to go and how to get there. They are less likely to be tied to a budget than other generations, and when not visiting family, they fill their itinerary with museums, historical sites, arts and culture, and recommendations from locals.

Mexican travelers are purchasing last-minute deals more than ever before due to economic and political uncertainty and a constantly changing exchange rate since the new presidential administration. The Mexican consumer relies less on travel agencies and tends to buy directly from OTAs, airlines, and hotels.

Mexican international travelers prefer to purchase flights online after comparing prices with several OTAs and airline websites. The same trend is also happening when booking hotels. However, if it is the traveler’s first time visiting a destination or they want to celebrate a special date outside with their family and friends, they tend to consult with a travel agent.

Brand USA Traveler Research

In the summer of 2013, Brand USA launched its Global Market Intelligence program. As part of this program, Brand USA commissioned PhoCus Wright, Inc. to conduct proprietary consumer research in various international markets. Respondents were recruited from an online panel. For markets beyond North America, the results reflect responses from adults who travel outside of their continent for leisure. The Global Market Intelligence program is designed to gain insight into travelers’ perceptions of the USA and its competitors, as well as general travel behaviors and preferences.

About the U.S. Department of Commerce

Brand USA works in close concert with the U.S. Department of Commerce through the National Travel and Tourism Office (NTTO) and the U.S. Commercial Service.

The National Travel and Tourism Office (NTTO)

NTTO is the liaison between Brand USA and the federal government. The office works with Brand USA on behalf of the Secretary of Commerce, who appoints the Brand USA Board of Directors and approves Brand USA’s annual objectives in consultation with the Secretary of State and the Secretary of Homeland Security. Additionally, NTTO facilitates the approval of matching funds for Brand USA and connects Brand USA to other federal agencies.

More broadly, NTTO creates a positive climate for growth in travel and tourism by reducing institutional barriers to tourism, administering joint marketing efforts, providing official travel and tourism statistics, and coordinating efforts across federal agencies through the Tourism Policy Council. The office works to enhance the international competitiveness of the U.S. travel and tourism industry and increase its exports, thereby creating U.S. employment and economic growth through:

• Management of the travel and tourism statistical system for assessing the economic contribution of the industry and providing the sole source for characteristic statistics on international travel to and from the United States;
