Brand USA

Who We Are

Our Mission

As the destination marketing organization for the United States, Brand USA’s mission is to increase incremental international visitation, spend, and market share to fuel the nation’s economy and enhance the image of the USA worldwide.

Established by the Travel Promotion Act of 2009 as the nation’s first public-private partnership to spearhead a globally coordinated marketing effort to promote the United States as a premier travel destination and to communicate U.S. visa and entry policies, Brand USA began operations in May 2011.

Building on Success

As one of the best levers for driving economic growth, international travel to the United States currently supports 1.8 million American jobs (directly and indirectly) and benefits virtually every sector of the U.S. economy. Since its founding, Brand USA has worked with more than 900 contributing organizations to invite the world to explore the exceptional, diverse, and virtually limitless travel experiences and destinations available in the United States of America.
Our Partnerships

Brand USA’s operations are supported by a combination of non-federal contributions from destinations, travel brands, and private-sector organizations plus matching funds collected by the U.S. government from international visitors who visit the United States under the Visa Waiver Program.

A Message from Christopher L. Thompson

As the destination storytellers for the United States of America, Brand USA helps drive our nation’s economy, create jobs, and bring the people of the world closer together. This guide is designed to assist you in generating business from the Italian outbound-travel sectors. And, while it includes data from our fiscal year 2019, it’s important to acknowledge the unprecedented impact of COVID-19 in 2020. The global pandemic has resulted in tremendous loss for many families and has had a devastating impact on the travel industry. All of this makes Brand USA’s work even more critical. We are uniquely positioned to help guide the industry out of this crisis.

Our forward-thinking marketing approaches allow us to capture the attention of global audiences in new, more compelling ways which ensure the United States stays top-of-mind as an aspirational travel destination. In September 2019, we debuted Brand USA Travel Week Europe. This event provided partners a cost-effective way to directly engage travel trade professionals from 20 European countries, including well-known and emerging markets. During the event, we detailed our One Europe strategy which considers the impact of Europe as a whole, with 14.5 million collective visitors to the United States in 2018. This One Europe strategy allows us to better leverage and amplify initiatives and partnerships, including those with tour operators, airlines and media who are all buying, reporting and distributing across borders.

Italy is the 10th largest overseas source market for U.S. visitation with 1.086 million people traveling to the United States in 2019 and spending $4.32 million. According to the U.S. National Travel and Tourism Office, the top five activities visitors from Italy look for are shopping, sightseeing, exploring national parks, visiting art galleries and museums, and touring small towns.
Brand USA uses many voices to showcase the diverse people and places across the United States in a way that inspires and encourages wanderlust. In FY2019, Brand USA launched the United Stories campaign giving voices to real travel experiences from a variety of perspectives including locals, international visitors, category experts and the creative class. We continued to stream content through the GoUSA TV streaming and YouTube channels, which offer a variety of short, medium, and long-form content about a diversity of travel experiences.

As you consider resources, please know Brand USA has a dedicated travel-trade website which provides a more effective and efficient platform for industry professionals to navigate information about U.S. travel. In addition, please don’t hesitate to reach out to our team about U.S. destinations, the opportunities we offer to enhance your marketing efforts, and the most effective ways to inspire travelers to book trips to the USA.

We look forward to working with you in the months ahead to generate business to the United States from Italy.

Together, we are marketing the USA!

The Italian Travel Industry

Tour Operators

There are more than 750 tour operators in Italy, but only four of them can record revenue exceeding EUR100 million per year. Small to medium-sized companies are the real engine of the market because they ensure greater flexibility and response speed to travel agencies. This includes personalized services, innovative products, and the possibility to expand targets.

Travel Agencies

Approximately 8,000 travel agencies are currently working in Italy. Most of them are associated with a travel network. In 2020, 30 consortia are present in the market.

The five main Italian networks are:

- Welcome/Geo
- Bluvacanze
- Gattinoni Mondo di Vacanze
- UVET
- Robintour

OTA (Online Travel Agencies)

Online booking is becoming more complex, as reflected by mass market websites that “save money” (Volagratis, Lastminute) and sites that reveal “hidden secrets” (SecretEscape, TripAdvisor). Other sites allow for the creation of special packages sold through specialized portals (SecretEscape) or dedicated to specific targets (active travel, travel with bloggers).

Profile of the Italian Traveler

The total number of Italian travelers grew to 71.883 million in 2019 (411.155 million overnight stays). In the summer, 37.8 percent of the population took at least one vacation. For destinations, 76.2 percent ventured throughout Italy (a 12.8 percent decrease from 2018), and 23.8 percent were directed abroad.

Leisure trips are about 89 percent of the total, and business trips are about 11 percent. 93.4 percent of overnight stays are dedicated to holidays and 6.6 percent to business travel.

The average length of travel increased slightly to 5.7 nights (six for holidays). “Long” holidays, four or more nights, continue to prevail (54.9 percent of holidays) over shorter ones (45.1 percent), most of which have a duration of four to seven nights (57.4 percent). Italians chose to go on holidays during the summer (38.8 percent), and the average duration, 8.1 nights, was about twice the length of other quarters of the year.

During the winter of 2019, the majority of Italians traveling were 25-34 years old (19.2 percent). Those aged 55-64 traveled during the spring and autumn seasons (respectively 28.0 percent and 23.4 percent). The summer brought out 35- to 44-year-old travelers (47.0 percent).

The summer period was confirmed as one with the highest concentration of holidays. In fact, about 23 million Italians left to travel, more than a third of the population (37.8 percent), with 30.8 percent of residents taking at least one long vacation (18.5 million) and 9.5 percent at least one short one (5.7 million).

In 2019, the Internet was the preferential channel for booking accommodations, with 58.2 percent of trips being booked online. About 69 percent of these reservations were made through intermediaries. The remaining 31 percent of travelers booked via the private home or hotel’s website.

Italian Traveling to the USA

2019 visitation numbers from Italy were reported at 1.086 million visitors, a slight increase (1.2 percent) compared to 2018 (1.073 million).

Brand USA Traveler Research

In the summer of 2013, Brand USA launched its Global Market Intelligence program. As part of this program, Brand USA commissioned PhoCus Wright, Inc. to conduct proprietary consumer research in various international markets. Respondents were recruited from an online panel. For markets beyond North America, the results reflect responses from adults who travel outside of their continent for leisure. The Global Market Intelligence program is designed to gain insight into travelers’ perceptions of the USA and its competitors, as well as general travel behaviors and preferences.

About the U.S. Department of Commerce

Brand USA works in close concert with the U.S. Department of Commerce through the National Travel and Tourism Office (NTTO) and the U.S. Commercial Service.

The National Travel and Tourism Office (NTTO)

NTTO is the liaison between Brand USA and the federal government. The office works with Brand USA on behalf of the Secretary of Commerce, who appoints the Brand USA Board of Directors and approves Brand USA’s annual objectives in consultation with the Secretary of State and the Secretary of Homeland Security. Additionally, NTTO facilitates the approval of matching funds for Brand USA and connects Brand USA to other federal agencies.

More broadly, NTTO creates a positive climate for growth in travel and tourism by reducing institutional barriers to tourism, administers joint marketing efforts, provides official travel and tourism statistics, and coordinates efforts across federal agencies through the Tourism Policy Council. The office works to enhance the international competitiveness of the U.S. travel and tourism industry and increase its exports, thereby creating U.S. employment and economic growth through:

- Management of the travel and tourism statistical system for assessing the economic contribution of the industry and providing the sole source for characteristic statistics on international travel to and from the United States;
- Design and administration of export expansion activities;
- Development and management of tourism policy, strategy and advocacy;
- Technical assistance for expanding this key export (international tourism) and assisting in domestic economic development.
